# Record High Net Income in 'Year of Continued Growth'

Shell Oil Company hopes to maintain the rate of growth which has been characteristic of the past few years, it was indi-cated in the 1964 annual report now being mailed to sharehold-

Although last year was in Although last year was in some respects a difficult one for the oil industry, with average gasoline prices driven to their lowest level in 10 years, it was a year of continued growth for Shell, the report said.

Earnings reached a new high for the third consecutive year, surpassing 1963 by more than 10 per cent. Net income was \$198.2 million, or \$3.27 a share, compared with \$179.9 million or \$2.97 a share in 1963. Crude oil and natural gas production, refinery runs and sales of petro-leum and chemical products

seum and chemical products were the highest in the Company's history.

The emphasis on expansion will continue this year, Monroe E. Spaght, President, declared in an introductory letter to chemical control of the con shareholders.
'We have started the year 1965

with an ambitious program that with an ambituous program that is going to test our abilities fully," he said. "The short-range prediction is that the economy will continue strong. Total domestic demand for oil products in 1965 is expected to increase about 3 per cent. With these circumstances, and as Shell continues to increase the efficiency of its operations, we expect a further improvement in the Company's position."

The Company's large capital expenditures, which were \$432 million in 1964 and which will be even greater this year, "provide the best indication that the growth of the last few years will be maintained," Mr. Spaght said.

"They are expected to result in continued addition to oil and gas reserves by amounts ex-ceeding the expected increases in production, and to provide the refining capacity and sales outlets needed to meet the expanding demand for the Company's products," he said. "Higher (Continued on Page 4)

**API** Awards

PRESENTING PRIZES to the winners of the Wood River Refinery safety slogan contest held last month is Refinery Manager G. A. Lorenz, shown (second from right) presenting an AM-FM radio to E. E. Underwood, Treasury. From the left are Fire and Safety Manager R. A. Randels; A. E. Skrobul, Gas Department, winner of second prize; Underwood; Lorenz, and C. D. Ahlquist, Utilities, third prize winner in the contest.

# Awards Are Presented to Slogan Contest Winners

"Safety is a thing called common sense." That slogan, written by E. E. Underwood, Treasury Department, will be seen frequently at Wood River Refinery for the rest of 1965, As the winning entry in the Refinery safety slogan contest held in February, it earned Un-derwood a Zenith Royal AM-FM table model radio.

Second and third prizes in the contest went to A. E. (Tony) Skrobul, Gas Department; and C. D. Ahlquist, Utilities Department, respectively. Skrobul received a Zenth clock radio, and Ahlquist a personal-size transistor radio.

Skrobul's winning entry was: "Safety is priceless but inexpensive." Ahlquist suggested: "Safe work habits pay off in golden vears.'

The three winning entries

were selected from nearly 1,150 submitted by employees and members of their families. The radios were presented to the prize winners by Refinery Manager G. A. Lorenz.

### X-Rays Taken of 987 Employees In Two-Day Visit

Chest X-rays were made of 987 Wood River Refinery em-ployees March 15 and 16 when the Mobile X-Ray unit of the Madison County Tuberculosis Association visited Wood River Refinery. Six hundred five employees were x-rayed at the Main Gate on March 15 and 382 at the South Gate the following day. Those x-rayed will be noti-fied of the results by mail.

# Annual Easter Egg Hunt Is Set for Saturday, April 10

Shell Recreation Association board members began making plans this month for the an-nual Easter Egg Hunt, to be held on Kendall Hill at 11 a.m. Saturday, April 10. From 1,000 to 1,500 persons are expected to attend the annual event.

In the event the weather doesn't cooperate, the egg hunt will be held at the same time on the following Saturday morning, April 17.

Children taking part in the that will be divided into five groups according to age, and there will be a number of prizes available to the luckiest hunters in each group. Prizes, including silver dollars, toys and other things attractive to children will be even more numerous than in the past, and board members promise that

every young Easter Egg hunter will go home with at least a candy prize.

There will be one group for toddlers, under 2 years of age; another group for children 2, 3 and 4 years old; another for 3 and 4 years old; another for children 5 and 6 years old; a group for children 7, 8 and 9 years of age, and another for children 10 years of age and older. And as before, there will be a class for the "babies in arms," who can be carried by their parents to get their Easter candy from a box and not have to look for it.

Also included in the arrangements for the annual event are refreshments for those attend-ing. Adults present will be treated to hot coffee and doughnuts, and there will be treats for the children.

# Albers, Armstrong Go to Shell Management Course

F. W. Albers, Wood River Refinery Administrative Superintendent; and J. W. Armstrong, Chief Research Engineer, Re-Center Research Engineer, Research Laboratory, will attend the 13th Shell Management Course to be held from April 4 to 30, 1965, at Arden House on the Harriman Campus of Columbia University, about 50 miles north of New York City.

Albers and Armstrong will be among the 26 managers from all Shell Companies throughout the United States and Canada who will participate in the four weeks of intensive study. In addition, four managers from other Royal Dutch Shell Group companies will attend.

The course is designed to give further training to persons in management positions. The

Armstrong

Albers

instructors are Shell's top executives, and authorities from universities, government and business. Among the subject areas covered are Shell's operations and functions as an integrated industrial organization; the social, economic and poli-tical trends and issues which

### Lube, Valve

American Petroleum Institute awards for working more than a million manhours without a disabling injury were presented last month to the Valve Repair Section of the Engineering Field Department and the Lubricating Oils Department.

Refinery Manager G. A. Lorenz presented the API plaques to representatives of each employee group.

The Valve Repair Section was The Valve Repair Section was honored for an accident-free period which began September 21, 1948. As of March 1, 1965, the group had accumulated 1,028,920 manhours without a disabling injury, and the safety record was continuing.

The larger Lubricating Oils Department began its safe working record February 12, 1960, and as of March 1, 1985, had worked 1,169,392 man-

# Repair Earn

hours without a disabling in-The Lube Oils safety jury. record also was continuing. The groups honored were two

of several which worked throughout 1964 without a disabling injury. Others were the Brickmasons, Carpenters, Cranemen, Instrument Men, Painters, Tinners, Tool Room

Men, Engineering Office, Enginering Services, Fire and Safety, Aromatics, Cat Crack-Satety, Aromatics, Cat Cracking, Thermal Cracking, Distilling, Gas, Refinery Laboratory, Research Laboratory, Utilities, P & I R, Purchasing-Stores, Treasury, Technological and Economics and Schoduling. Treasury, Technological Economics and Scheduling.

## G. C. Farmer Retires From Shell Credit Union Position

G. C. Farmer, one of the founders of the Shell-Wood River Federal Credit Union, retired from his position with the organization on January 21, 1965, He was serving as treasurer of the credit union at the time of his retirement.

Farmer had previously served the credit union as president and in other capacities in the 30 year history of the organization.

H. W. Milligan of the Dispatching Department succeeds (Continued on Page 3)

CREDIT UNION OFFICERS for 1965 are shown above at their first meeting after electing officers for the year. From the left in front are Beth Steele, cashier; H. W. Milligan, treasurer; J. R. Ferguson, president: C. H. Denny, vice president: K. E. Schumacher, secretary; and Nancy Bane, cashier. Standing (from the left) are L. R. Bierbaum, director; C. S. Janssen, supervisory committee chairman; C. R. Portwood, director; L. H. Rohde, supervisory committee secretary; G. L. Eggimann' office manager; M. J. Mygatt, director; M. C. Keilbach, credit committee chairman; U. E. Miller, supervisory committee member; Don Borchelt, assistant office manager; V. W. LaMarsh, director.

# 1964 SRA Winners Honored at Banquet

Jack Buck, St. Louis radio sports personality, was guest speaker for the 1965 Shell Rec-Banquet Tuesday, February 23, at Rusty's Cafe in Edwards-ville. One hundred Wood River employees and special guests attended.

Buck discussed the recent history of the St. Louis Base-ball Cardinals, and predicted their 1965 pennant chances to be as good as they were in 1964 when they won the National League pennant and the World Series. He was introduced by SRA President Joe A. Hmurovich, who served as master of ceremonies,

Among the special guests introduced by Hmurovich were Refinery Manager and Mrs. G. A. Lorenz. The new Refinery Manager addressed the group briefly, expressing his pleasure at returning to Wood River.

Trophies and awards were presented winners of 1964 SRA athletic events by Athletics Chairman Kenneth R. Zumwalt, Utilities. Social Activities and Fishing Contest Chairman Quentin M. Nungesser, Fire and Safety, introduced fishing contest winners.

Winners honored included the Refinery Golf League winners

EXAMINING TROPHIES before presenting them to winners of 1964 Shell Recreation Association athletic events at the annual Winners' Banquet are SRA President Joe A. Hmurovich, Engineering Field; and Kenneth R. Zumwalt, Utilities. More than 50 trophies were presented to SRA members at the banquet held at Rusty's Cafe in Edwardsville on Tuesday evening, February 23.

from the Thermal Cracking Department and the second place team from the Personnel and Industrial Relations Depart-ment; six individual winners of the annual Refinery golf tourney; four winners of the Refinery bowling tourney; members of the winning Refinery Bowling League team, who received jackets; horseshoe pitching contest winners and bridge tourney winners.

efforts of last fall. From the left are S. A. Rinaldi, Technological, winner of D flight; T. E. Innocenzi, Chief Technoligist, C flight winner; K. S. Baird, Aromatics, B flight winner; John Honchak, winner of the championship flight; and John Martin, Engineering winner of A flight in the annual SRA tourney.

SPEAKER OF THE EVENING was Jack Buck, popular St. Louis radio sports personality, whose topic for the SRA members and guests was centered upon the St. Louis Cardinals.

BOWLING LEAGUE WINNERS received Shell jackets as their awards. SRA President Joe A. Hmurovich is shown here with George R. Hudson, Treasury; L. K. Clark, Alkylation; Joe Klinke, Engineering Field; C. W. Barnes, Purchasing-Stores; and H. D. Nelson, Engineering Field. A member of the team not present when the above photograph was taken was L. E. Rudolph, Treasury.

### Hugh D. Guthrie Is Elected AIChE Director; Was Alky Manager Here

Hugh D. Guthrie, a former Manager of Wood River Refinery's Alkylation Department. has been elected a director of the 25.000-member American Institute of Chemical Engineers,

it was announced at the 57th annual meeting of the organiza-tion in New York recently.

Guthrie has been active in the organization at both local

Since 1961, he has been serving as Assistant to the Manager, Products Availability and Economics, in Head Office

### Research Lab Club Has Bowling Tourney

Approximately 80 bowlers participated in the annual Re-search Lab Club bowling tour-ney, Sunday, February 21, at the Bowl Haven in Alton. The tourney was open to members

tourney was open to members and wives.

Winning the men's singles title was E. R. Lane, and Mrs.

John (Jackie) Lauck won the trophy for ladies' singles competition. Winning the mixed doubles event were Jerry Martin and Mrs. Joe (Marti) Fost-

HORSESHOE PITCHING winners of 1964 also were among the trophy winners. In the above photo with cepting a trophy for also winning in singles.

A UNIQUE TROPHY for a unique feat went to Bob Schaulat of the Treasury Department. Zumwalt is shown giving Schaulat a hole in one trophy for the ace he scored last summer on No. 7 at Cloverleaf. It was the first hole in one scored by a golfer in Shell Recreation Association play.

# SRA \$2 Dues Deductions Set for April Pay Periods

Dues of Shell Recreation Association members who have signed payroll deduction authorization cards on file will be deducted from earnings in April, it was announced this month by the SRA Board of Governors and the Treasury Department. Dues this year will be \$2.00.

No membership drive is planned this year, according to SRA Membership Chairman Roy F. Jenkins, Engineering Field. Instead, those members who pay cash and employees who are not members but wish to join the organization may do so by contacting C. W. Barnes, Pur-chasing-Stores; or the Person-nel and Industrial Relations Department.
Employees who wish to cancel

Employees who wish to cancel
their membership in the organization should so inform the
Company by letter no later
than April 1.
The Shell Recreation Asso-

ciation has a busy schedule for 1965, and members and their families are entitled to a wide

variety of recreational and social activities. Several single SRA-sponsored events are worth more than the dues, making the \$2.00 price a bargain.

Two Events in April

Two events in the immediate future are the annual Easter Egg Hunt on Kendall Hill April 10, and the Shell Queen Dance April 30, at the Collinsville Park Ballroom. This will be the first year for the SRA to sponsor the Shell Queen Dance, and board members plan for it to be run along lines similar to those of the popular annual winter dance at the same location. Queen candidates will be

selected early next month, and ballots will be mailed to the homes of all SRA members. The name of the winner will not be known until the night of the dance.

Other activities open to SRA members and their families include a bridge club, camera club, rock club, golf, bowling, basketball and other athletic events.

Zumwalt are J. A. Schillinger, Refinery Laboratory; and J. A. Grover, Engineering Field; who won the doubles title in the tourney held last September 20. Grover is ac-

### Shell Assists Grant Made to Principia

Refinery Manager G. Lorenz presented a Shell Companies Foundation, Inc. grant totaling \$1,500 to Dr. David K. Andrews of Principia College March 5, in ceremonies at the college. The grant was made through the Shell Assists Program of the Foundation.

This is the first year the Principia College has been chosen to participate in the Shell Assists Program.

The gift was made in three parts of \$500 each. One grant has no restrictions as to use, while the second was designated for use in developing the general faculty of the college. The third gift must be used in developing mathematics and physical sciences departments.

The Foundation receives its funds from Shell Oil Company and its subsidiaries.

GRANTS FROM SHELL were presented to Principia College recently through the Shell Assists Program of the Shell Companies Foundation, Inc., which receives its funds from Shell Oil Company and its subsidiaries. In photo above, Wood River Refinery Manager G. A. Lorenz is presenting the gift to Principia College President Dr. David K. Andrews, as Albert B. Pryibil, Division Public Relations Manager, looks on in ceremonies at the college.

BRIDGE CLUB WINNERS, in a tourney completed February 22, were these four employees. From the left are G. J. Reinis, Research Laboratory; R. L. Gray, Refinery Laboratory; Dr. I. Rozalsky, Research Laboratory; and J. D. Metcalfe, Research Laboratory. Winning second place in the annual tourney were Mr. and Mrs. V. W. LaMarsh and Mr. and Mrs. R. E. Klie.

## Bill King Leads Scorers in Refinery Basketball Loop

Bill King of the Laborers ran away with individual scoring honors in the Shell Recreation Association's Refinery Basket-ball League. But there certainly was no run-away as far as a league winner is concerned, for the regular season ended with the four-team league's championship still undecided.

King led the league in total points scored, average points per game, individual single game scoring, free throws completed and free throws completed and free throw percentage. King scored 195 points in 12 games for an average of 16.2

points per game.

On February 2, he pumped in 12 field goals and 14 free throws for a single game record of 38 points in a game in which the Laborers nosed out Research Laboratory, 60-57. Free-throwwise, King has made 65 onepointers in the 83 times he has toed the line, for a percentage of 78.3.

Second half play ended with the Laborers, Research and Engineers locked in a three-way tie for first Place. A 49-44 Engineer victory over the Laborers on the final night of regularly scheduled play deadlocked the standings.

A three-team play-off was scheduled to begin the week of March 15, but still to be held is a play-off between Research and the Laborers for the first half title, and possibly a play-off between the first and second half winners. Only the Technological Department team, which failed to post a victory in the entire season, can safely be ruled out of the championship

### Directors Vote To Increase Dividends

Directors of Shell Oil Company voted February 25 to raise the quarterly dividend to 42%cents per share from 371/2 cents per share, payable March 24, 1965, to shareholders of record March 8, 1965

Monroe E. Spaght, President, said that the increase follows improved earnings in 1964.

### Record High Net Income In 'Year of Continued Growth'

(Continued From Page One)

capital expenditures are planned also for the chemical business, where the present broad range of products will be further extended."

Mr. Spaght also spelled out Shell's attitude toward diversi-fication, stating that the main emphasis will continue along Shell's traditional lines of busi-ness. Although new activities are as diverse as sonic techniques in pile driving and ani-mal medicines, this diversity is the almost inevitable result of realistic assessment of new business opportunities that arise with the broad area considered appropriate for Shell, it was explained.

The number of wells drilled in 1964 was more than 40 per cent greater than in 1963 — 1,009 against 707. Of the total there were 194 net exploratory wells, resulting in 52 successes. Of the total 815 net development wells, 732 were producing oil and gas

The largest manufacturing expansion program ever under-taken by Shell at one time began in 1964 at the Norco, La., and

Martinez, Calif., Refineries. When completed, it will expand the Company's crude refining capacity by 70,000 barrels a day, or some 10 per cent.

In marketing, the Company's record volume of refined products sales was 9 per cent above that for 1963. However, revenues from sales advanced only 8 per cent because of lower

Gasoline Sales Up

In automotive gasoline, the Company's most important product, sales volume increased nearly 13 per cent, but the rise in revenue was limited to 11 per cent.

Shell Chemical Company posted a number of records, too, as revenues rose more than 6 per cent. The industrial chemicals, cent. The industrial chemicals, plastics and resins, and ammonia divisions all had record sales. Plans for a major expansion of Shell's industrial chemicals business were well advanced. They involved three projects for manufacturing projects for manufacturing primary alcohols used in biodegradable detergents, to be made a unique Shell process, ethylene oxide, and chlorine and

### Shell Bowlers Lose Match to Western

Shell bowlers were unable to overcome a 159 pin handicap March 7, and were nosed out by Olin keglers in a renewal of the annual Shell - Westerner Club bowling tourney. Six men's teams from Shell and six from Olin competed in the match at the Bowl Haven.

Shell bowlers knocked over 15,976 pins, compared to the 15,887 scratch score of the Westerner Club members, but the handicap reversed the decision giving Olin a 70 pin advantage, 16,046 to 15,976.

The top bowler of the day for the Shell Recreation Association was J. Zelenka, who posted the high single game with a 254, and high series, 588, with other scores of 193 and 141. G. Hof rolled a 244 game for the second high of the day.

Following the tourney, the Shell bowlers were hosts at a social hour at the Westerner Club. attended by Shell and Olin bowlers and their families.

ADDING UP THE SCORE was unusually interesting at the Shell-Westerner Club Bowling Tourney March 7, since a handicap resulted in the Shell bowlers losing the match by 70 pins. Joe Klinke is wielding the pencil in the photo above as other bowlers watch. From the left are Elmer Allen of Olin; SRA President J. A. Hmurovich; Jim Gillespie, Westerner Club president; Shell Retiree Oscar Kleinert; SRA Board Member H. D. Nelson; Shell Bowler C. H. Irwin; and SRA Board Member K. R. Zumwalt, who also bowled.

### Albers, Armstrong to Attend Shell Management Course

(Continued From Page One) affect the oil and chemical in-dustries; and the functions and skills of modern managers

Albers began his Shell career at Wood River in 1949, in the Personnel and Industrial Relations Department. In February, 1951, he was transferred to Head Office, where he was en-gaged in industrial relations work until September, 1955. He then was transferred to the West Coast as Industrial Rela-tions Representative. He returned to Wood River in Sep-tember, 1958, as Assistant Manager Personnel and Industrial Relations. He was named Manager of the Department May 1, 1961, and became Administra-tive Superintendent April 1,

Albers is a native of Nebraska City, Neb., and attended Nebraska University at Lincoln and Washington University in St. Louis, where he received bachelor of science, in business administration, and law degrees

Armstrong was graduated from Westminster College in Salt Lake City, Utah, in 1951, with a bachelor's degree in chemistry. After service in the U. S. Army Chemical Corps, he joined Shell at Martinez Re-

search Laboratory in 1953. He later was assigned as a Technologist with Shell's San Francisco Products Application De-partment, the Head Office Research Department and the Detroit Products Application Department. He transferred to Wood River as the Assistant Chief Research Chemist on September 1, 1963, and was named Chief Research Engineer July 1, 1964.

### C. A. Towne Elected

### Lab Club President

C. A. Towne was elected Lab Club president for 1965 at a meeting of newly elected board members February 1. Towne succeeds D. D. Haig as president of the club.

Brenda Jackson is the new secretary and K. C. Crawford the new treasurer. Board members are G. E. Webster, J. E. Lauck and J. A. Bowman. Other retiring officers include Doris Dickerson as secretary, J. B. Maynard as treasurer, and M. A. Kelly, W. J. Glaser and I. W. Davis as board members.
